

Science Department

1. Science Promotion Activities @STCC

Through science exploratory activities held by each subject and science society with interesting sciences topics, students can cultivate a curiosity about the world and develop an interest in science, and thus they can become active learners in science. Furthermore, these experiences enable students to learn to appreciate and understand the beauty and nature of science and become lifelong learners in science and technology.

Public Observing Station of the Transit of Venus
(In cooperated with Hong Kong Space Museum, HKU, Ho Koon Nature Education and Hong Kong Astronomical Society)

Hoi Ha Wan Marine
Life Education Centre Visit

Mushroom Farm Visit

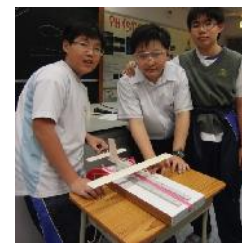

Stargazing workshop

Sun Spots Observation Activity

Chemistry workshop
- Natural indicator

Balsa Glider Model-making
Workshop and Flying Competition

Canaan Catapult competition

Leaf Vein Bookmark
Activity

Robotics workshop

Dissection of Grasshopper Activity

Science Talk by HKU Lecturer@STCC

Inter-class Science Competition

CUHK Science Faculty Visit
