Activity Title: Career talk - General Ways of Thinking about Design		Participants:

Highlights:

Mr. Gary Lam, the Head of Department of Design at Caritas Bianchi College of Careers, made a visit to our school. He presented a career talk, and also taught the general ways of thinking about design, which are analytical thinking and creative thinking. The students had a chance to know more about the worldwide employment opportunities of creative arts industry. Such experience also widened their exposure to creative industry and largely helped them to set their target in study.
