Activity Title: Product and Fashion Design - School Talk and Taster Programme at THEi		Participants: S4 and S5 Visual Arts students

Highlights:

S4 and S5 Visual Arts students participated in the “School Talk and Taster Programme” organized by the Faculty of Design of the Technological and Higher Education Institute of Hong Kong.

There were two programmes, namely Product design and Fashion Design. Our students had a precious experience to learn outside the classroom through attending these two Programmes. They had a short Taster workshop, so they could have an overall picture about the features of product and fashion design.

The students had a chance to know more about the worldwide employment opportunities of creative arts industry. Such experience also widened their exposure to creative industry and largely helped them to set their target in study.
