Activity Title: JA Company Programme - Fantastiske		Participants: S4 & S5 Programme participants

**Highlights:**

JA Company Programme enables students to learn about entrepreneurial skills through running their own company and finally operates publicly on 17 December in Chater Garden. Participants needed to act as owners, executives and staff. They started their business by raising capital in school, designing, producing and promoting their own products. The whole process has been guided by teachers and business partners (volunteers in real business companies).

The company is called 'Fantastiske' and they sold creative pencil cases, key rings and phone cases. Through this activity, participants are enriched with career related experiences and feel more confident in achieving greater accomplishments in life.
