Activity Highlight

Date: 18/11/2016	Time: 4:00pm-5:00pm	Venue: 4/F Bio Lab
Activity Title: Science Workshop- Grasshopper Dissection		Participants: 20

Highlights:

As heard from Science Society meeting, STCC students showed a strong interest in dissection in Science learning. Grasshopper dissection was arranged to be the first theme of this year Science workshop. Participants got hand-on experience in insect dissection, particularly observed and discovered the amazing structures of breathing and digestive system of a grasshopper. Through this valuable experience, students could build up a sense of curiosity and good practical skills in handling biological samples.
