Our school emphasizes on developing effective critical thinking and learning skills among our students so as to enhance their self-learning effectiveness. In order to help our S1 students to build a good foundation for learning, we would like to give them opportunities to acquire useful and practical skills and learning strategies, and also to cultivate good learning habits. For this purpose, our school has jointly organized a “Critical Thinking” Workshop with the Maestro Education. This is a precious learning opportunity for our students. We sincerely hope that you can support and encourage your child in joining this workshop in order to acquire effective thinking skills and cater for diverse learning needs in each subject.
