**2017 – 2018 Circular to Parents (66)**  
**Matters on 15<sup>th</sup> Anniversary Open Day and Preparation Day**

9<sup>th</sup> November 2017

To our dearest parents,

I have great pleasure to inform you that our 15<sup>th</sup> Anniversary Open Day will be held on 2<sup>nd</sup> and 3<sup>rd</sup> December 2017. Our school has scheduled 1<sup>st</sup> December 2017 as a preparation day so as to allow students to prepare for the Open Day. Please also be reminded that a seminar related to ‘Green School’ will be conducted in the morning of the preparation day and all S4 and S5 students have to attend.

Activities of the 15<sup>th</sup> Anniversary Open Day will include game booths, talent shows organized by students, students’ learning outcome exhibition and so on. We would like to share these joyful moments with our students, teachers, alumni and the public. We do think that our students will gain valuable learning experiences after this grand occasion. Moreover, our school has the honour to invite Professor Wang Youwei, Chairman of China Green Building Council to conduct a seminar related to ‘Green School’. This would be a valuable learning opportunity for our students. For the introduction of guest speaker, please refer to the attachment. Parents please remind your child to attend all the activities as scheduled.

P.T.O.

The arrangement for students in each form on 1/12, 2/12 & 3/12 is as follow:

| Date                | Activity               | Arrival Time | Dismissal Time  | Participants                      | Venue  | Dress                        | Remarks   |
|---------------------|------------------------|--------------|---|-----------------------------------|--|------------------------------|---|
| 1/12<br>(Fri)       | Preparation Day        | 9:00 a.m.    | Students are allowed to dismiss after completed their duties. | All S1 to S3 & S6 student helpers | Whole school   | School uniform or PE uniform | Students who are not helpers do not need to come to school. |
| 1/12<br>(Fri)       | 'Green School' Seminar | 9:00 a.m.    | 11:00 a.m.  | All S4 & S5 students              | Roll-call: Classroom<br>Seminar: Hall  | School uniform               | Students who are not helpers can leave after the seminar.   |
| 2/12<br>(Sat)<br>AM | Open Day               | 9:00 a.m.    | 12:00 noon  | S1 to S6 students                 | Roll-call:<br>S1, S2 & S6 -<br>Playground<br>S3Ft & 3Hn<br>S4Ft & 4Hn<br>S5<br>} Class-rooms<br>3Lv – Rm 301<br>3Hp – Rm 302<br>4Lv – Rm 401<br>4Hp – Rm 402 | School uniform or PE uniform | All students are required to attend.                        |

### **Professor Wang Youwei**

The Chairman of China Green Building Council

The Chief Engineer of China Academy of Building Research

The Committee member of Ministry of Construction of Science and Technology

The consultant of Advisory Board of Beijing Municipal People's Government

The Executive Council member of Chinese Society for Urban Studies and the member of Chinese Green Building Committee

The Deputy Officer of Expert Committee of China Construction Industry Association

The chief leader of 'Assessment Standard of Green Building' and 'Green Building Guidelines'

---

Professor Wang Youwei is the chairman of China Green Building Council and the chief editor of 'Assessment Standard of Green Building'. He was the Associate Dean of China Academy of Building Research and researcher.

Professor Wang is the author of 'Guidelines for the Implementation of Top-quality Project', 'Perforated Brick Anti-seismic Design and Construction Regulations' and '10 New Technology in Construction Industry and its Application' etc. He has involved in editorial work for 'The Engineering Instructions for Assessment Standard of Green Building' and 'Green Building Technical Guidelines'. Meanwhile, he is also one of the chief editors of 'The White Paper on China Green Building'.

Moreover, Professor Wang is the advocate of China Green Building Design. He has introduced the idea of Passive Building Design, which represents the conformation to the sunlight, rainwater, wind force, temperature and humidity. Through the full utilization of these natural elements, it is expected to make less energy consumption or minimal consumption. It also aims at improving and creating the most suitable indoor environment by making use of the engineering methods like planning, designing and environmental configuration.
